

## **ToCA's Scent Free Policy**

For many people who get treated at ToCA, exposure to perfumes, colognes or scented hair or body products can cause a lot of discomfort such as headaches, nausea, and allergy symptoms.

Please make sure you are not wearing any scented products when you come to ToCA. If you are, you may be asked to wash it off, change your shirt, move seats or to make your visit another time.

Thank you for keeping ToCA comfortable and safe for everyone!
